VALSE IN E FLAT

Biographical Sketch—Auguste Durand

Born at Paris, France, July 18, 1830

Died at Paris, France, May 31, 1909

MARIE AUGUSTE DURAND studied organ with Francois Benoist, Professor at the Paris Conservatoire. At nineteen he became organist at St. Ambroise, and during the following forty-four years, served at various Paris churches. He became a music publisher at forty and built up the famous house of Durand & Cie., specializing in the music of such modern composers as Saint-Saëns, Massenet, Lalo, and Debussy. He was active as music critic and he composed several masses, many songs and piano pieces.

General Information: The Waltz as a social dance first appeared in Austria in 1780 and soon spread over Europe. The classic composers of waltzes for actual dancing were Johann Strauss, father and son, and Joseph Lanner, although Beethoven and Schubert wrote sets of attractive waltzes. Weber idealized the waltz and Chopin immortalized it. Durand, following the prevailing mode, wrote six salon valse, the present composition becoming immediately popular. Its first theme is obviously an imitation of the first theme of Chopin's "Minute Waltz," but falls far short of its famous prototype in intrinsic value. Familiarly known as the "Lovelight Waltz," its facile elegance has endeared it to several generations of students.

Form and Structure: This composition is in Composite Song-Form. It opens with a brilliant Introduction of nineteen measures (meas. 1 to 19). Part One consists of three sixteen-measure periods. The first period is in E flat (meas. 20 to 35), the second, in B flat (meas. 36 to 51). Eight measures of transition lead back to E flat (meas. 51 to 58), following which the first period is repeated (meas. 59 to 74). Part Two begins with a sixteen-measure period in A flat (meas. 75 to 90). A thirty-six measure sentence in F minor follows (meas. 91 to 126), the first section of which (meas. 91 to 106) is extended to twenty measures upon its repetition (meas. 107 to 126), ending on the dominant of A flat. The first sixteen-measure period in A flat is then repeated (meas. 127 to 142). Part Three (meas. 143 to 196) is an exact repetition of Part One, minus one measure at the end, the beginning of the Coda taking the place of the final arpeggio. The first section of the Coda is sixteen measures long (meas. 197 to 212). On its repetition this is extended to twenty-two measures (meas. 213 to 234) bringing the composition to a brilliant conclusion.

Interpretation: The principal technical requirement in this composition is a good legato. The ascending arpeggios on E flat (meas. 34, 73-a, 157) and on A flat (meas. 89, 141), and the arpeggios in the Introduction, particularly the one at meas. 10 to 11, will have to be practiced very carefully. Smoothness in arpeggio playing depends principally upon the flexibility of the thumb in turning under. Note particularly that the second finger must cling to its key until the thumb, turning

VALSE IN E FLAT

under, has sounded the next note. The running passage which constitutes the first theme (meas. 20 to 31) must be played with the greatest possible evenness. The rhythmical second theme (meas. 36 to 51) is best played with a light Up-Arm Touch for the staccato notes and a relaxed Down-Arm Touch for the accented chords on the second beat. At meas. 77, 81, 129, 133, hold the first bass note until the pedal has been depressed but be careful not to catch the staccato third in the right hand. In the F-minor section (meas. 91 to 126) it is important that the short R. H. notes be released promptly as indicated by the eighth-rests, otherwise an undesirable syncopated effect will be produced. Nimble fingers will have no trouble with the repeated-note passages in the Coda. They should be played lightly and quite gaily, working up to an effective climax at the end.

Musical score for "Valse in E flat, 6". The score is written for piano and features a variety of musical notations including dynamics, articulation, and fingerings.

Measures 159-165: *f marcato*. Measures 159-160 have a *Red.* marking. Measures 161-162 have a *Red.* marking. Measures 163-164 have a *Red.* marking. Measure 165 has a *Red.* marking.

Measures 166-172: Measures 166-167 have a *Red.* marking. Measures 168-169 have a *Red.* marking. Measures 170-171 have a *Red.* marking. Measure 172 has a *Red.* marking.

Measures 173-178: Measure 173 has a *Red.* marking. Measure 174 is marked *p dolce*. Measure 175 has a *Red.* marking. Measure 176 has a *Red.* marking. Measure 177 has a *Red.* marking. Measure 178 is marked *f m* and has a *Red.* marking.

Measures 179-184: Measures 179-181 are marked *poco rit.*. Measures 182-184 are marked *a tempo*. Measures 182-183 have a *Red.* marking. Measure 184 has a *Red.* marking.

Measures 185-191: Measures 185-186 have a *Red.* marking. Measures 187-188 have a *Red.* marking. Measures 189-190 have a *Red.* marking. Measure 191 has a *Red.* marking.

Measures 192-197: Measures 192-193 have a *Red.* marking. Measures 194-195 have a *Red.* marking. Measures 196-197 have a *Red.* marking.

The score includes various musical notations such as *f* (forte), *p* (piano), *marcato*, *dolce*, *cresc.* (crescendo), *mf* (mezzo-forte), *poco rit.* (poco ritardando), and *a tempo*. Fingerings are indicated by numbers 1-5 above notes.

Recitation Questions on "Valse in E Flat"

1. Give a brief sketch of the life and work of the composer.
Ans.

2. Who were the classic composers of waltzes for dancing?
Ans.

3. What composer immortalized the waltz?
Ans.

4. How would you classify the form of this piece?
Ans.

5. In what key is the first period in Part Two?
Ans.

6. What is the principal technical requirement of this piece?
Ans.

7. Upon what does smoothness in arpeggio playing depend?
Ans.

8. What touches are to be used in playing the second theme?
Ans.

9. What is the meaning of *Meno Mosso*?
Ans.

10. What is the meaning of *cresc. ed accel.*?
Ans.

Music Education

vs.

Imitation of the Teacher

Music Education is no longer a luxury. It has become a part of our everyday life, and is of vital importance to every cultured person. But, there is a vast difference between a Music *Education* and the ability to move the fingers over the keyboard to produce a succession of sounds. In one case, there is initiative and musical understanding—the other is mechanical mimicry of the teacher.

A Music Education for a piano student consists of two things:

- (1) A mind trained to understand the fundamentals and construction of music, and the principles which underlie piano playing.
- (2) Hands trained to execute the will of the educated mind.

Equipped with a true Music Education, the student is materially assisted in his own playing—he can draw on his store of accumulated knowledge and make independent progress—he can understand and appreciate the artistry of others.

Lacking a Music Education, the student can only mimic the teacher—there is no musical inspiration—he has no foundation of music knowledge upon which he can build and progress.

This Composition offers the student not only the music score with authoritative pedaling, fingering and phrasing—but also the poetic idea of the composer in writing this particular number, and annotations on proper interpretation. The entire Progressive Series Course is just as complete, just as sound pedagogically and musically as this composition.

Talent in music is not essential to the acquirement of a practical education in music. The *Progressive Series of Piano Lessons* enables the music instructor to impart a Music Education with the same success and results with which academic subjects are taught in the public schools.
